## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2014 - December 31, 2014

Filing Confirmation Number: 0006621190

Filing Deadline: February 18, 2015

FRN: 0006945950

Filing Date: 01/15/2015 02:22 PM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? No

Were you a small entity at any time during the three years prior to the end of the reporting period? No

Date that you ceased to be a small entity?

#### Company Information

Company Name: T-Mobile US, Inc.

Brand Names: T-Mobile  
GoSmart Mobile  
MetroPCS

PO Box:

Street Address: 12920 SE 38th Street

City: Bellevue

State: WA

Zip Code: 98006

Contact Name: Michael Palmer

Contact Phone: (425) 383-5558

Contact Fax:

Contact Email: michael.palmer@t-mobile.com

#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

## Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?

Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

## Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: [www.t-mobile.com](http://www.t-mobile.com) (Accessibility)

Explain:

## Consumer Outreach

Describe consumer outreach efforts in the past 12 months: T-Mobile makes information available to consumers about the availability of its current HAC product offerings. T-Mobile's HAC compliant handset boxes are labeled. In addition, T-Mobile places the HAC M-rating and, where required, T-rating information on its price/feature cards, which are located in T-Mobile owned and operated retail stores. HAC product information is available on the company's public webpage, which is referenced within the Status Report.

T-Mobile embraces opportunities to talk about its HAC offerings, as well as other products, services and innovations designed to promote accessibility, to broad audiences by participating in conferences and seminars attended by organizations representing persons with hearing loss and members of such organizations. As an example, during June 2014, T-Mobile exhibited at and participated in the Hearing Loss Association of America's annual national convention in Austin, Texas and at the M-Enabling Conference held in Arlington, Virginia. In addition, T-Mobile participated in an accessibility roundtable at the September 2014 CTIA Show in Las Vegas, Nevada. In many of the discussions that take place at these gatherings, T-Mobile continues to stress the importance for consumers to try/test HAC handsets prior to purchase. Furthermore, T-Mobile makes available a "voice-barred/data-only" plan which is attractive to customers with profound hearing loss.

## Methodology for Functionality Levels

Best/Premium:

Devices featuring higher-end design, material and finish, paired-up with a more sophisticated user interface and functionalities. Functionality can include Wi-Fi Calling, LTE and VoLTE calling features. These phones have high

end chipsets allowing for advanced features and applications.

Good:

Phones with straight-forward features, applications, and design. Functionality can include Wi-Fi calling, LTE and VoLTE calling features. These devices have basic chipsets.

## Report Remarks

The Commission has indicated that service providers are expected to verify handset- model-specific HAC information: "from the manufacturer's previous reports to the Commission, from the manufacturer's own website, or from the manufacturer directly." See Amendment of the Commission's Rules Governing Hearing Aid-Compatible Mobile Handsets; Petition of American National Standards Institute; Accredited Standards Committee C63 (EMC) ANSI C63, First Report and Order, 23 FCC Rcd 3406, 3445-56 para 98 (2008)("2008 Order"). Additionally, the FCC has indicated that service providers should check the FCC's equipment authorization search website. In preparing its HAC Report covering 2014, T-Mobile encountered instances where for certain handsets there were differences between the HAC rating or frequency information on the FCC's equipment authorization search website and the information reflected in the confirming documentation T-Mobile received from an OEM/manufacturer (upon which T-Mobile is allowed to rely) and/or from the manufacturer's previous reports to the Commission. As part of its due diligence efforts, T-Mobile investigated such discrepancies and where significant has included an explanation in the "Remarks" section for applicable handsets.

You have reported the following handset model summary information.

Total number of handsets offered: 68

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	53	83%	8	13%	3	5%	64
CDMA	4	100%					4
WCDMA	52	84%	7	11%	3	5%	62
LTE	32	86%	5	14%			37
Wi-Fi	50	83%	7	12%	3	5%	60

## Handset 1: Alcatel 665

### Handset Maker

Alcatel

### Handset Model Name

665

### FCC ID

RAD155

### Air Interfaces/Frequency Bands

850 MHz GSM

1900 MHz GSM

2.4 GHz Wi-Fi

### Dates

This handset model was offered from: 05/12 to 03/14

### Ratings

M-Rating: M4

T-Rating:

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911? N

#### Functionality Level

Good

#### Remarks

---

### Handset 2: Alcatel 768T

#### Handset Maker

Alcatel

#### Handset Model Name

768T

#### FCC ID

RAD287

#### Air Interfaces/Frequency Bands

1900 MHz WCDMA  
2100 MHz WCDMA  
2.4 GHz Wi-Fi

#### Dates

This handset model was offered from: 08/14 to 12/14

#### Ratings

M-Rating: M3

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911? N

#### Functionality Level

Good
